

INSIGHT PRO

DEALER INSTRUCTIONS

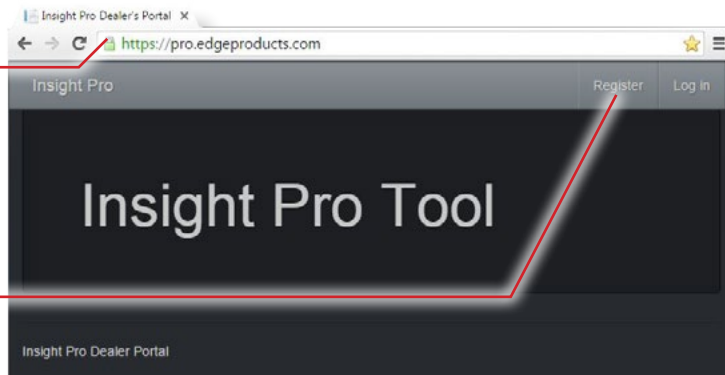

GETTING STARTED

Portal Registration & Log in

STEP 1 - Visit the Insight Pro dealer portal website: <https://pro.edgeproducts.com>

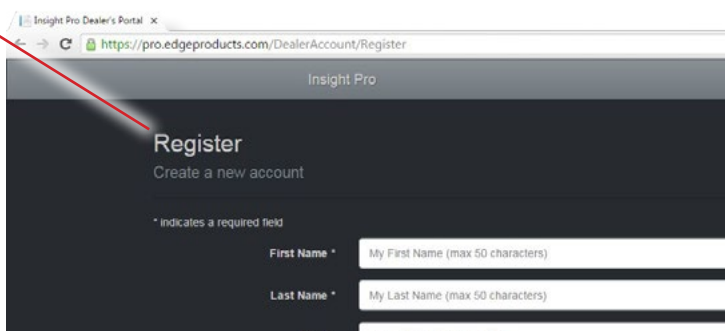

You will use this website to manage your customers and the custom calibrations that they have purchased from you.

STEP 2 - Click the Register button to begin the registration process.

STEP 3 - Fill out the registration form. When complete, press the Register button at the bottom of the form.

A verification screen will appear letting you know that your account has been created. Soon after, you will receive an email from Powerteq.

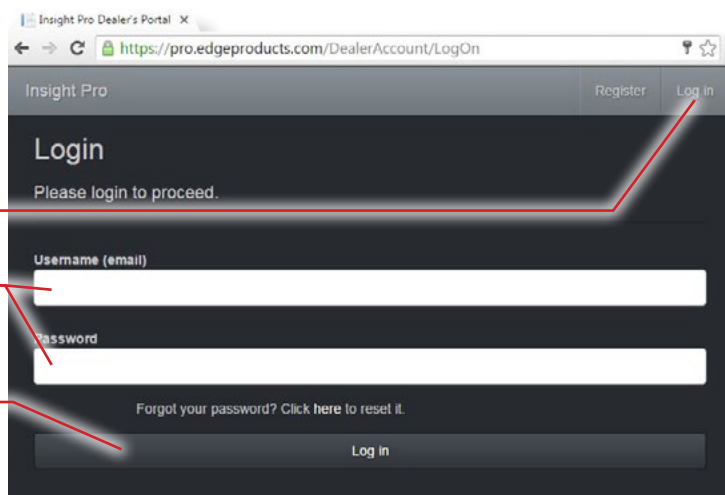

STEP 4 - Check the email address you provided during STEP 3. In the email from Powerteq, click the link labeled "[Validate this e-mail address](#)".

After clicking on the link, the Insight Pro webpage will open indicating that your email account has been verified. This indicates that the registration process is complete.

STEP 5 - Click the Log in button.

STEP 6 - Enter the email and password you specified during registration.

STEP 7 - Click the Log in button to continue.

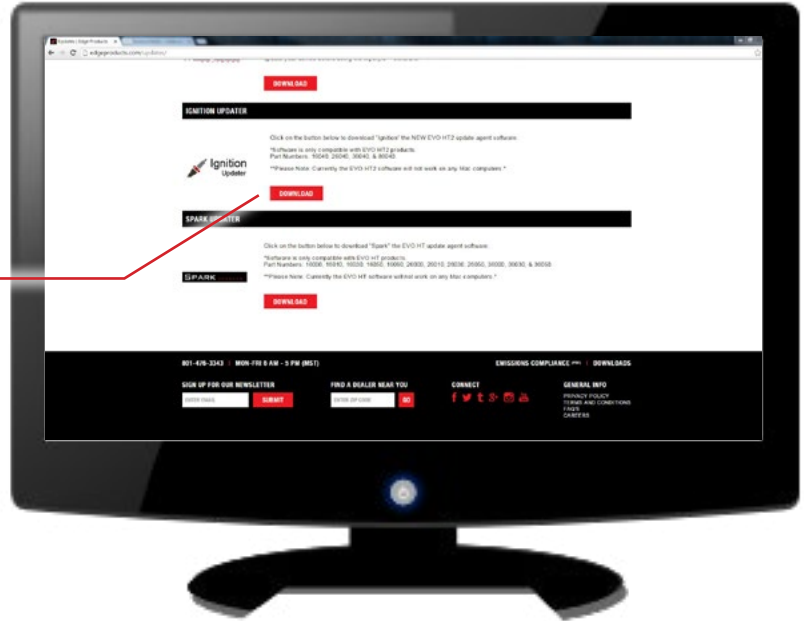

Downloading Ignition Update Software

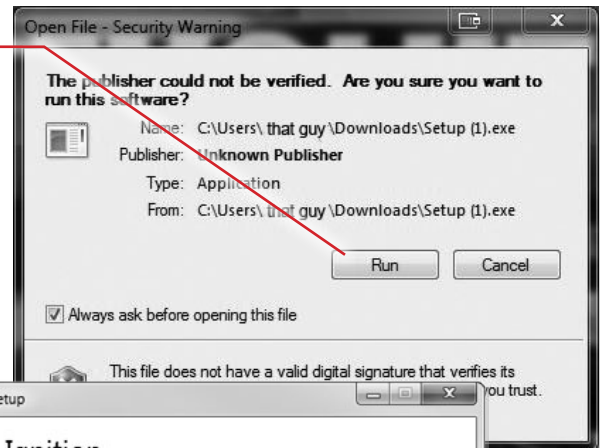

STEP 1 - Go to: www.edgeproducts.com

STEP 2 - Click the **UPDATES** tab located at the top of the webpage.

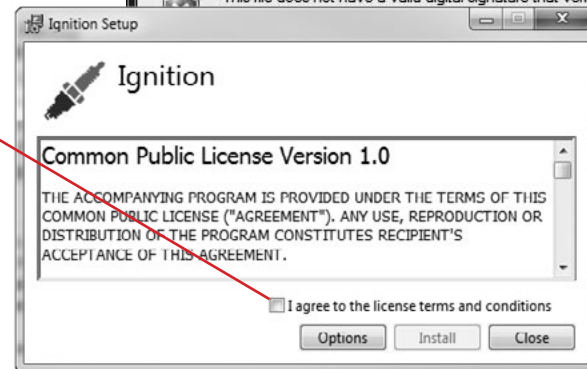

STEP 3 - Scroll down to the **IGNITION UPDATE** option and click the **DOWNLOAD** button.

STEP 4 - Click the **RUN** button on the pop-up menu.

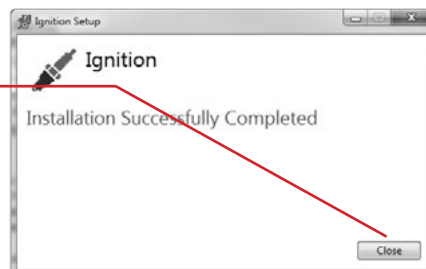

STEP 5 - Read and click the box to accept the license agreement terms.

STEP 6 - Click the **Install** button to continue.

STEP 7 - Click the **Close** button once the download is complete.

NOTE: A desktop icon will be created.

Targeting a Device

Updating and Saving Stock

METHOD 1 - You (the dealer) sells the Insight Pro directly to the end user

STEP 1 - Double-click the Ignition icon on your desktop. If asked to confirm your email, specify that you are a dealer and click Yes to confirm.

STEP 2 - Plug the device into your computer using the provided USB cable.

STEP 3 - Click the “Login as dealer” box, then enter the same email and password you specified during the Portal registration.

STEP 4 - Click the Submit button. *If there are updates available, we recommend updating the device prior to your customer reading stock.*

STEP 5 - Once any updates are complete, you will be prompted to unplug the device.

STEP 6 - Next, send the device to your customer.

STEP 7 - Have your customer plug the device into their vehicle and read vehicle stock. *They are provided with instructions on how to do this.*

STEP 8 - Have your customer plug the device into their computer and open Ignition. *This will automatically add their stock file to your Dealer Portal once an update has been performed.*

METHOD 2 - End user purchased an Insight Pro elsewhere but wants your custom tunes

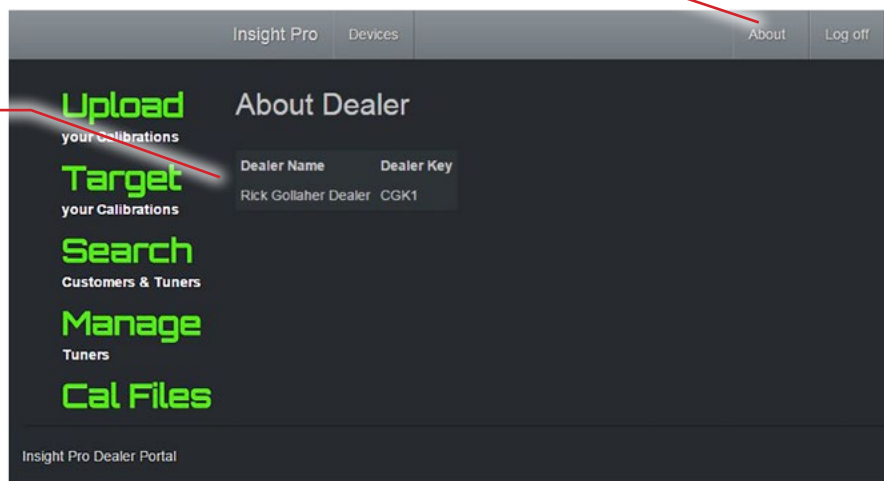

STEP 1 - Log in to the Insight Pro dealer portal website: <https://pro.edgeproducts.com>

STEP 2 - Click the “About Profile” button at the top of the webpage.

STEP 3 - Your “Dealer Name” and “Dealer Key” will be provided.

STEP 4 - Make sure the end user has already plugged the device into their vehicle and saved stock. *They are provided with instructions on how to do this.*

STEP 5 - Provide the Dealer Key to your customer, and let them know that they can log into their Ignition client using this key. *Once they login to Ignition and plug the device into the computer via USB, they will be required to input a dealer key before they can update their device. When the device has updated, their stock file will be uploaded to your Dealer Portal.*

Downloading Stock Files from the Portal

Once the device has been used to read stock on the vehicle and connected to the Ignition update software, you are ready to download the stock file and create your custom tunes.

STEP 1 - Log in to the Insight Pro dealer portal website:

<https://pro.edgeproducts.com>

STEP 2 - Click Search

STEP 3 - Click the Tuners tab. *The Insight Pro that was connected to Ignition after reading stock on the vehicle will appear in the list of devices.*

STEP 4 - Click the serial number.

The screenshot shows the Insight Pro Dealer's Portal interface. The URL is <https://pro.edgeproducts.com/DeviceManager#/Search>. The page has a navigation bar with "Insight Pro", "Devices", "About", and "Log off". On the left, there are menu items: "Upload your Calibrations", "Target your Calibrations", "Search Customers & Tuners", "Manage Tuners", and "Cal Files". The main content area is titled "Search Customers & Tuners" and has two tabs: "Tuners" (highlighted with a red box) and "Customers". Below the tabs is a search bar with the text "Search for...". A table below the search bar shows a list of tuners. The first row is highlighted with a red box and contains the following information:

S/N	VIN	Stock File	Cal Files	Calibrator	Updated
200793856	1GSDG54S45G462111				2/10/2016

At the bottom of the page, it says "Insight Pro Dealer Portal".

STEP 5 - Download the stock file to your computer by clicking the link as shown.

The file will save as a stock.epq file.

STEP 6 - Open the HP Tuners VCM software and modify the stock tune accordingly. *The Insight Pro device currently allows you to create and add up to 4 custom tunes.*

The screenshot shows the "Manage Tuners" page in the Insight Pro Dealer's Portal. The URL is <https://pro.edgeproducts.com/DeviceManager#/Search>. The page has a navigation bar with "Insight Pro", "Devices", "About", and "Log off". On the left, there are menu items: "Upload your Calibrations", "Target your Calibrations", "Search Customers & Tuners", "Manage Tuners", and "Cal Files". The main content area is titled "Manage Tuners" and shows a "Tuner Serial Number" field with the value "200793856" and a blue "X" icon. Below this, there is a "Tuner Package" section with a "Current Targeted Package" field showing "Not Targeted - Click to Target" and a "No Packages" button. There is also a "One-Time Actions" section with a "Request Stock File read" checkbox and a "Stock file" field showing "userFiles/200793856/1GCH9C23D77F162111/stock.epq". At the bottom right, there is a "Save Changes" button. At the bottom of the page, it says "Insight Pro Dealer Portal".

VCM Software Tip - Export Edge Products custom tune files by: File-> Export-> "To powerteq"

For more information regarding HP Tuners and/or their VCM Tuning software, log on to their website:

<https://www.hptuners.com>

Uploading Custom Tunes to the Portal

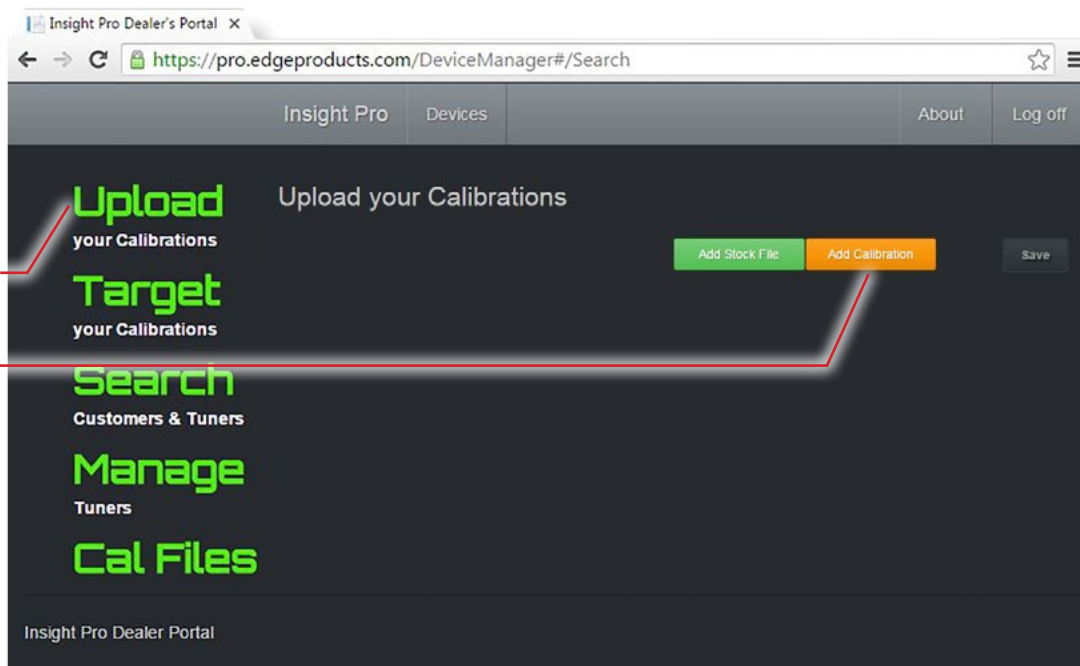

Once you have created your custom tunes and saved them to your computer, you are ready to upload them to the Dealer Portal.

STEP 1 - Log in to the Insight Pro dealer portal website:

<https://pro.edgeproducts.com>

STEP 2 - Click Upload

STEP 3 - Click “Add Calibration File”.

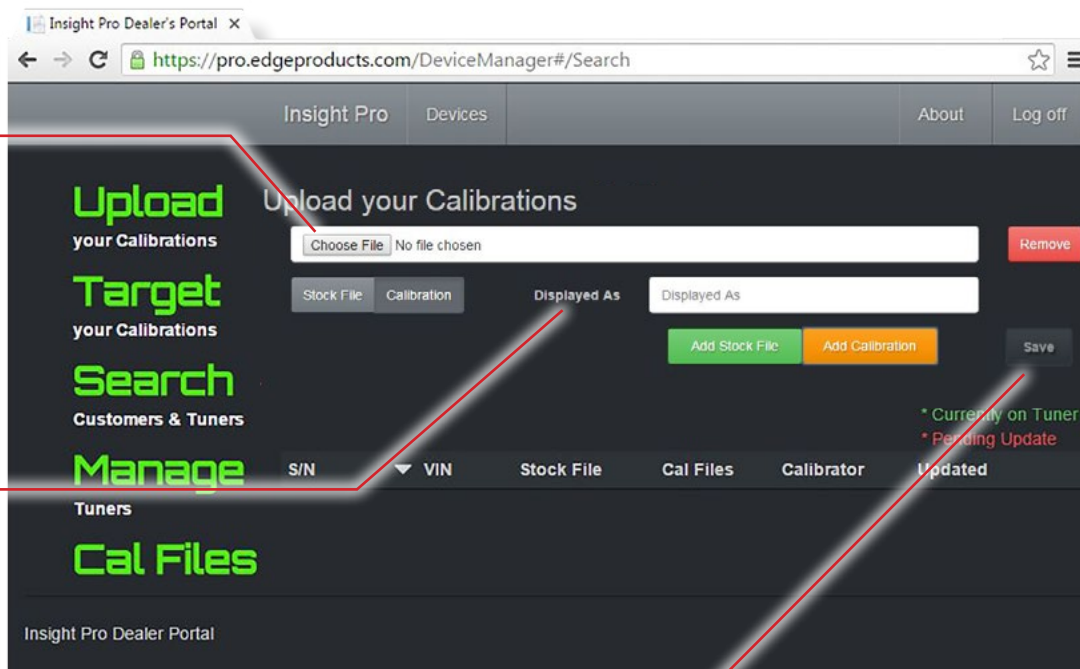

STEP 4 - Click the choose file button.

STEP 5 - Browse to and select the custom .epq file you created.

Repeat steps 3-5 until all custom files have been added.

STEP 6 - Enter a “Displayed As” name for the individual tune (Ex: Level 1). This is what the tune is labeled as on the device.

STEP 7 - Click the “Save” button to complete the file upload.

STEP 8 - Select the “Cal Files” menu button to view the files you have just uploaded.

Targeting Custom Tunes to a Customer Device

Once you have uploaded your custom tunes, you are ready to target them to the Insight Pro device.

STEP 1 - Log in to the Insight Pro dealer portal website:

<https://pro.edgeproducts.com>

STEP 2 - Click Target

STEP 3 - Enter the Tuner serial number. You may also use the search customers & tuners menu to locate the serial number.

STEP 4 - Select the original stock file associated with the VIN you are providing tunes for.

Insight Pro Dealer's Portal

Insight Pro | Devices | About | Log off

Upload your Calibrations

Target your Calibrations

Search Customers & Tuners

Manage Tuners Cal Files

Target your Calibrations

1 Enter Tuner Serial Number

Enter Serial number, ex: 200123456

Or, use the Search Customers & Tuners

2 Select one Stock File and up to 4 Calibrations

Search: Search Criteria

File Name	Type	Stock Chksum	Size	Created	Owner
1GCHK23114F149260 - Tune 1.epq	Calibration		524.56k	02/23/2016	rgollaher
1GCHK23114F149260 - Tune 2.epq	Calibration		524.56k	02/23/2016	rgollaher
1GCHK23114F149260 - Tune 3.epq	Calibration		524.56k	02/23/2016	rgollaher
1GCHK23114F149260 - Tune 4.epq	Calibration		524.56k	02/23/2016	rgollaher

Insight Pro Dealer Portal

Target User!

STEP 5 - Select the custom tune files (up to 4).

STEP 6 - Use the Up / Down arrows to set the order of each tune as displayed on the device.

2 Select one Stock File and up to 4 Calibrations

Slot Setup	Calibration	Displayed As
Stock	1GCHK23114F149260 - stock.epq	
1	1GCHK23114F149260 - Tune 1.epq	Level 1
2	1GCHK23114F149260 - Tune 2.epq	Level 2
3	1GCHK23114F149260 - Tune 3.epq	Level 3
4	1GCHK23114F149260 - Tune 4.epq	Level 4

STEP 7 - Click the "Target User!" button once you are satisfied with the adjustments.

STEP 8 - Notify your customer (end user) that you have targeted their device with custom tunes. The end user will need to connect their device to the Ignition update software. Once they have done this, their device will populate itself with your custom tunes. They are now ready to tune their vehicle.
